-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1754

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3, 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 5105411, for the reasons of record.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 5105411 as applied to claim 1 above, and further in view of JP 55116624, for the reasons of record.

Applicants' argument, that JP '411 neither teaches nor suggests that the starting gases are fed at the claimed concentrations, is not convincing. JP'411 discloses that the starting gases are diluted. It would be within the skill of one of ordinary skill in the art to determine a suitable degree of dilution for the starting gases in the process of JP '411. Applicants' argument, that JP '411 neither teaches nor suggests that the fluorine gas and the ammonia gas are fed in portions from two or more gas inlets, is not convincing. The fluorine gas and the ammonia gas are considered to be fed in portions from two or more gas inlets in the process of JP '411 – the ammonia gas (i.e., a portion of the total starting gases) being fed through pipe 1 and the fluorine (i.e., another portion of the total starting gases) being fed through pipe 2. Applicants' claims do not require that the fluorine gas or the ammonia gas be fed in portions from two or more gas inlets. Applicants' argument that, as seen from Example 3, when ammonia gas is fed at two different positions, unexpectedly superior results are provided, is not convincing, since

Art Unit: 1754

even under applicants' interpretation of the claims, the claims would not be limited to feeding the ammonia in separate portions, but rather embrace feeding only the fluorine in separate portions.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
